

COGNITIVE SIGNAGE

ENGLISH VERSION

Cognitive signage is provided herein for ease of use by Event Stewards and all persons who are holding multi-area venues in the SCA.

These signs have been designed for ease of printing on standard home printers, and for ease of use by persons who have cognitive difficulties when utilizing maps or reading handmade signs of varying colors and letter forms.

It is not the desire of this Office to discourage the many and diverse handmade maps and signs that reflect the styles and times in history which we all embrace, but rather to augment those signs with ones which will be clear for those who face additional challenges in navigating sites for any of many reasons.

There are times, as well, when at the last minute we have forgotten that we needed signs at all, and these can fill in during those moments.

The bilingual and linguistically challenged will discover a matching set of francophone pages, as a courtesy to our most northern neighbors. I would like to thank my deputy, Lady Sile Dhubh inghean Mhic an Mhadaigh and her aide, Lady Marguerite de Gui, for their kindness in assisting me with translations.

Also included are a complete alphabet and number template so that one can make additional signs either by cut and paste, or tracing and lightbox.

Whether you print as needed, or keep a folio of each sign in a plastic sleeve for reuse, we wish you the best of luck with your event.

This booklet has been designed by the very gracious Maestra Dresden del Penna at the behest of the Office of the Accessibility Porter. We acknowledge her efforts with much love and gratitude.

By my hand this 1 May, A.S. L at Tadiğë Hal in the Shire of Nordenhal,

ALAYNE

Alayne Alexandra Nyvern Nightwatcher
